

EntheoMedicine presents featured speaker **Robert Forte**,

Entheogenics and Psychedelics: Ancient and Modern Doorways to Wellbeing and Creativity

Join us to listen to a rare speaker, a researcher and storyteller who shares intimate recollections of his collaborations with Timothy Leary, Frank Barron, and as a former President of the Albert Hoffman Institute.

The talk will be followed by a Q&A and networking

Unity of Santa Barbara, 227 Arrellaga St. Fri, April 27th, 2018 From 6-9PM

TICKETS: entheomedicine.eventbrite.com

Robert Forte will explore mainstream entheogens: their psychological implications, capacity for healing body / mind, and the role these substances can play in creativity.

This inspiring and provocative talk will provide:

- An engaging trip through the vibrant history of psychedelics.
- An exploration into the evidence-based therapeutic, creative and spiritual potential of entheogens.
- What really happened in the 60's shutdown and how these substances can be an antidote to rising authoritarianism.
- Answers to your submitted questions and.
- Ample time to meet Robert Forte, network with organizers and other attendees.

Robert Forte is a renowned, authoritative and experienced entheogenic pioneer. He brings to life the background behind the current revival of science-based research on psychedelics and growing public awareness.

Forte will also reveal past and future ways these substances can enhance our individual freedom and diminish the power of growing authoritarian governments.
